

9. Populate the question and answer sections with text as appropriate.
10. Click **Save**.
11. Repeat steps 7-9 until all questions have been added to the section in the Question Library.
12. Click **Done Editing Questions** on the top-right side of the page.

You can create a quiz that randomly draws questions from your Question Library once you have set it up. You can set up your quiz so that it draws questions from one section or from multiple sections of your Question Library.

1. Go to your **Quizzes** area.
2. Click **New Quiz**.
3. Enter a name for the quiz.
4. Click **Add/Edit Questions** (Figure 3).
5. Click **New**, and select **Random Section**

11. Check the checkbox next to each of the questions you would like to include on the quiz.
12. Click **Save**. All of the questions you selected will now be added to your quiz.
13. Enter the number of questions you would like to include on the quiz.
