Our ladder mounting and strapping device helps contractors who want a low effort solution to get their ladder onto the truck rack by automatically mounting the ladder.

The target market is 4,608,000 businesses and we plan to acquire 5% of the market.

This would equate to 230,400 businesses.

•	

Hold ladder in place	Simple fastening
Electronically powered	Doesthe hard work for you
Guide ladder into place	manually adjust ladder position
Reduce Friction	Less wear on the motor
